SUMMARY

With extensive experience in graphic design serving diverse clients globally, I am adept in Adobe Photoshop, Canva, and other editing tools, focusing on creating captivating visual content. My proficiency extends to video editing across multiple platforms, including short and long-form content. Backed by expertise in troubleshooting hardware, software, web development, and programming languages, I offer a comprehensive skill set for every project. I am enthusiastic about contributing to your company's success through my commitment to excellence and passion for driving growth.
